SAMPLE PARENTING SCHEDULES

The information and graphs below are samples of parenting time schedules based on children’s ages and different parenting styles. They are provided as a tool to give you ideas in order to help you create your own personalized schedule. Parenting time should be scheduled based on the needs of each individual family. You may fill out your own parenting schedule using the blank calendar below.

**Plan A Samples:** These plans are best suited where one parent has not been the child’s primary caregiver and/or wants regular contact but is not able to provide extensive care-giving due to an inflexible work schedule or other circumstance.

**Plan B Samples:** These are best suited for parents who have been involved in the day-to-day care of the child and who want greater contact than is afforded in Level A plans.

**Plan C Samples:** These are best suited for parents who have been involved to a significant extent in the day-to-day care of the child and desire maximum contact.

**Plan A:** A one or two-night weekend on alternate weeks, plus one evening every week. Can also omit the evening or make it an overnight. One home is “home base” for the child. For example:
