

ELECTRA GARCIA CASE

The following is a sample CRB case packet for the hypothetical case of the Garcia family. **Imagine this packet was provided to you before the second CRB review about 12 months into the case, which is scheduled to occur on 11/10/22.** A real CRB case packet would likely be longer and include more documents, but this case packet has been reduced for training purposes.

Documents in this case packet:

- 1. Prior CRB Findings and Recommendations Report:** This is a document produced by the CRB Field Manager after the first CRB review of this case on 5/12/22.
- 2. Family Report:** This is the case plan for the family, provided by ODHS. Note the date of the family report. This document contains more recent information than that contained in the prior CRB Findings and Recommendations report because it was written later.
- 3. Relative Search Document:** This records the agency's diligent relative search efforts.
- 4. Placement History:** This is the record of all placements (or in other words, foster/resource homes) that the child has been in during this case.

As you read this sample case in preparation for conducting a mock CRB review, you may find it helpful to take notes on a printed Case Notes Sheet. You may also find it helpful to reference the "Where to Find What Information" guide which discusses what you can expect to find in the various documents in a CRB case packet, and the "Findings Questions" guide which shows sample lines of questioning appropriate for each finding.

IN THE CIRCUIT COURT OF THE STATE OF OREGON
FOR THE COUNTY OF FLINT

In the Matter of
ELECTRA L GARCIA

Case No:
21JU12345

a child

CITIZEN REVIEW BOARD (CRB)
FINDINGS AND RECOMMENDATIONS

Citizen Review Board Flint 1
Date of Review: 05/12/22
Permanency Plan: Reunification
Concurrent Plan: Adoption

Date Entered Care: 10/28/21
Date of Jurisdiction: 12/31/21
ODHS Number: DHS345678
Date of Birth: 10/21/08

Board Members Present: Maria Villareal, Selma Kerry, Liam Long, Allison Nolan, and Gary Owen.

Others Present: Tracy Lee, ODHS Caseworker; Lydia Garcia, Mother; Jon Garcia, Father; Resource Parent for Electra; Harrison Parker, Attorney for Electra; William Jones, Attorney for Ms. Garcia; Beverly Smith, Attorney for Mr. Garcia; Teresa Schmitt, CASA; Sue Land, CRB Field Manager.

Information Considered by the Board: Family Report, 4/1/22; Ongoing Safety Plan; Ongoing Visit and Contact Plan; Assessment Summary; Protective Custody Report, 10/28/21; Judgment of Jurisdiction and Disposition, 12/31/21; Shelter Order, 10/29/21; Petition, 10/28/21; Father's Questionnaire; Verification of ICWA Eligibility; Action Agreements, 1/2/22; Mental Health Assessment; CANS Assessment; Placement History.

Basis for Jurisdiction:

4A: The mother's substance abuse, if left untreated, interferes with her ability to safely parent.

4B: The child has emotional, mental health, and/or behavioral problems that require structure, supervision, and treatment. The mother needs the assistance of the court and the agency to develop parenting skills to safely meet the child's needs.

4C: The father's substance abuse, if left untreated, interferes with his ability to safely parent.

4D: The child has emotional, mental health, and/or behavioral problems that require structure, supervision, and treatment. The father needs the assistance of the court and the agency to develop parenting skills to safely meet the child's needs.

4E: The father subjected the mother to domestic violence in the presence of the child, creating a threat of harm to the child.

ICWA Status: Does not apply, because: There is not a reason to know this child is an Indian child. Ms. Garcia and Mr. Garcia completed ODHS Form 1270, the Indian Child Welfare Act (ICWA) verification forms, indicating they do not have Native American or Alaskan Native ancestry. At the review, parties reported no reason to know Electra is an Indian child.

The Board Made the Following Findings and Recommendations at the Review:

FINDINGS	Yes	No
<p>1. ODHS made reasonable efforts to prevent or eliminate the need for removal of the youth from the home.</p> <p>Background: According to ODHS records, a call of concern was received on 10/1/21 reporting parental substance abuse, domestic violence between the parents involving Electra, possible physical abuse of Electra, and neglect of Electra’s medical/mental health needs. Electra had disclosed physical abuse to a friend who made the call to ODHS, but recanted thereafter, and that was not pursued.</p> <p>ODHS conducted a child safety assessment and attempted an in-home safety plan which was not successful.</p> <p>ODHS’s efforts to prevent or eliminate the need for removing Electra from the home: ODHS conducted a child safety assessment, offered substance abuse treatment referrals to both parents, worked to get Electra reengaged in mental health treatment, offered parents a referral to a parenting class for parents of LGBTQ+ kids, attempted in-home safety plan.</p> <p>No further reasonable efforts on the part of ODHS could have eliminated the need for placement in foster care, in that: The in-home safety plan failed when the parents declined to participate in any services, continued to abuse substances, and continued to decline to take Electra to mental health appointments or fill Electra’s medication prescription. Electra reported Mr. and Ms. Garcia blamed Electra for ODHS involvement, and for the stress the family was under. Electra ran away from home 9 days into the in-home safety plan after another incidence of domestic violence in the home. Electra went to the emergency room expressing suicidal intent and refused to go home with either parent.</p>	X	
<p>2. ODHS has made diligent efforts to place the youth with a relative or a person who has a caregiver relationship.</p> <p>Electra moved into a specially certified non-relative placement a month ago on 4/13/22. This home was identified through contacts from Electra’s LGBTQ+ youth group.</p> <p>Prior to that placement, Electra was in a different nonrelative home, but it was not a good fit. The resource parents asked that Electra be moved after Electra snuck out of the house with the family’s 12-year-old daughter in the middle of the night and did not return for several hours, during which time the children’s whereabouts were unknown.</p> <p>ODHS’s efforts to locate a relative placement include: Initiating a relative search. A maternal relative who resides out-of-state reports an interest in being a long-term resource if needed. No in-state relatives</p>	X	

FINDINGS		Yes	No
	have responded to the relative search at this time.		
3A.	<p>ODHS has ensured that appropriate services are in place to safeguard the youth’s safety, health and well-being.</p> <p><i>Reason for “no” finding: Electra’s CANS assessor recommended Electra be assessed for a 504 Plan to address difficulties Electra has been facing in the educational environment as a result of several mental health diagnoses, but ODHS did not follow through. Electra’s dentist recommended an orthodontic assessment to address a legitimate medical issue that is causing Electra pain, and ODHS did not follow through as required (OAR 413-015-0465). The agency has not provided a Supervision Plan to Electra’s resource parents as required (OAR 413-020-0233).</i></p> <p>Electra, age 13, enjoys making electronic music, skateboarding, and baking. Electra uses they/them/their pronouns and identifies as nonbinary. Electra participates in a LGBTQ+ youth group which they report is a huge support. Electra’s placement is with a mentor from this LGBTQ+ group who has fostered children previously but was specially certified for Electra.</p> <p>Safety: ODHS has continued to make at least monthly contact with Electra and has not noted any safety concerns in the resource home.</p> <p>Although there have been safety concerns for Electra due to suicidal ideation, there have been no such reports in the few weeks since this new placement began. Electra’s attorney and CASA report no current safety concerns and indicate Electra seems to really be settling into the new placement, although acknowledge that this could just be a “honeymoon” period as well. Electra’s incidences of sneaking out and skipping school have been decreasing, and there have been no reports of Electra fighting or self-harming since entering foster care.</p> <p>Mr. Parker states Electra was invited to the CRB today but did not wish to participate due to school. Mr. Parker reports Electra is enjoying the current resource home and feels safe/supported there.</p> <p>Health: Electra completed a mental health and CANS (Child and Adolescent Needs and Strengths) assessment on 12/15/21, receiving an enhanced supervision level of 3 out of 3. ODHS has not provided the resource parents with the required Supervision Plan. The CANS assessment recommended ongoing outpatient mental health treatment to focus on symptoms of PTSD and anxiety, and to have Electra assessed for a 504 Plan. Electra was able to re-engage with the therapist they were seeing previously and has been attending counseling twice a week. The therapist recently reduced the counseling to once per week (as of last week) due to Electra’s stabilization and progress, with the option to increase appointments if</p>		X

FINDINGS		Yes	No
	<p>needed. Electra sees a psychiatrist for medication management monthly as well. Electra takes one medication for anxiety and sleep.</p> <p>According to ODHS records, Electra had a medical exam on 11/19/21 and a dental exam on 12/7/21. The dentist recommended Electra be assessed by an orthodontist to correct a problem with bite alignment related to a cleft palate that was surgically corrected when Electra was a toddler. The dentist noted that the bite issue may be a cause of Electra’s periodic headaches. Ms. Lee states a referral to an orthodontist has not been made because she does not think OHP covers orthodontics. She states that headaches are a possible side effect of the medication that Electra takes, and that Electra has access to over-the-counter pain medications as needed to treat this.</p> <p>Well-Being: Electra is in the 7th grade at Washington High School. Electra is performing below grade level at this time, mostly due to missed assignments and classes. Electra has reported struggling with being overwhelmed at school and having anxiety attacks about failing assignments and tests. Last school year, their anxiety impacted their school success as Electra would frequently skip classes or leave school early. Testing was also a big issue as Electra felt huge pressure and would avoid entire school days. Electra has reported that online school during the pandemic was a bit better, and therefore elected to finish out this school year using an online option. Electra is receiving some special assistance from the school counselor and some teachers but does not have an IEP (Individual Education Plan) or a 504 Plan. Ms. Lee reports that although the CANS assessment recommended it, she has not requested that Electra be assessed for a 504 Plan yet.</p> <p>Electra sees Mr. and Ms. Garcia weekly for an hour per visit, at the ODHS office. Mr. Garcia struggles to attend these due to various things such as other appointments, his work schedule, and illness but he will sometimes call during Ms. Garcia’s parenting time to check in. Parties report that Electra finds these visits awkward/challenging and tries to avoid them by feigning illness or making other plans. Electra reportedly loves Mr. and Ms. Garcia but does not want to have to return to their home, which Electra has described as scary and chaotic, and seems to feel that repairing their relationship may result in a quick reunification, which scares Electra.</p> <p>Electra’s aunt has reconnected and plans to visit Oregon as soon as Electra is out of school next month, so they can spend some time together.</p>		
3B.	ODHS has taken appropriate steps to ensure that 1) the substitute care provider is following the reasonable and prudent parent standard, and 2) the youth has/have regular, ongoing opportunities to engage in age appropriate or developmentally	N/A	

FINDINGS		Yes	No
	<p>appropriate activities.</p> <p>This finding only applies when the child is age 16 or older AND the current permanency plan is APPLA.</p>		
4.	<p>ODHS made reasonable efforts to provide services to make it possible for the youth to safely return home.</p> <p>ODHS made referrals for all court-ordered services in a timely manner.</p> <p>ODHS referred both parents to substance abuse evaluation, ART (Addiction Recovery Team) services, UAs (Urine Analyses) to confirm sobriety, and a parenting class for parents of LGBTQ+ teenagers. A referral for family counseling was considered but Electra's treatment team felt more time was needed in individual counseling before starting family counseling. Parents signed Action Agreements on 3/30/22. The agency referred Mr. Garcia for an intake assessment with the Batterer's Intervention Program and provided Ms. Garcia with information about the local Women's Place domestic violence shelter and victims' support advocate.</p> <p>Mother's attorney Mr. Jones states his client is satisfied with the referrals and efforts made by ODHS at this time.</p> <p>Father's attorney Ms. Smith states her client is also satisfied with the referrals made though wishes more services were available on the weekend.</p> <p>A Family Engagement Meeting occurred on 12/18/21 and both parents attended.</p>	X	
5.	<p>ODHS made reasonable efforts in accordance with the case plan to place the youth in a timely manner, and complete the steps necessary to finalize the permanent placement, including an interstate placement if appropriate.</p> <p>The plan under review is Reunification.</p>	N/A	
6.	<p>The parents have made sufficient progress to make it possible for the youth to safely return home.</p> <p>According to ODHS records, Ms. Garcia engaged in intensive outpatient services quickly after jurisdiction. She has now been moved to regular outpatient services and reports from her treatment provider are that she is engaged and doing well managing her sobriety. A week after starting regular outpatient services, Ms. Garcia had one positive UA but has not had any positive UAs since. She has started attending AA/NA meetings but has not found a sponsor yet. Ms. Garcia is more recently showing an interest in attending the parenting classes for parents of LGBTQ+ teenagers but has not signed up yet. She says that she is interested in engaging in family counseling when Electra is ready. Ms. Garcia has had one phone call with Electra's counselor since this case started in order to better understand Electra's mental</p>	X Ms. Garcia	X Mr. Garcia

FINDINGS		Yes	No
	<p>health needs.</p> <p>Ms. Garcia acknowledges that her husband has not committed to the same level of engagement as she has but feels he just needs a little more time to come around. Ms. Garcia's visits with Electra, while awkward and challenging at times, are safe and appropriate.</p> <p>ODHS and attorney Mr. Jones report Ms. Garcia is making great progress so far.</p> <p>According to ODHS records, Mr. Garcia had a substance abuse evaluation on 4/2/22 and was recommended for intensive outpatient services. He reports that he is too busy to engage in treatment. He says he uses marijuana for back pain so he will not be able to participate in any substance abuse treatment services anyway, since they do not tend to permit use of any substances. He reports he has been to a few AA meetings. He has not been participating in the UA program. There are reports that he continues to use substances frequently and that this is beginning to interfere with life obligations like work, but that his boss is one of his friends from high school and gives him a lot of leeway.</p> <p>Mr. Garcia has not completed the Batterer's Intervention Program intake assessment yet. Several intake appointments have been scheduled and rescheduled when he was unable to make it.</p> <p>Mr. Garcia continues to struggle with Electra's nonbinary gender identity and reports Electra will get over it in a couple of years. He does not agree with Electra's treatment plan including mental health medications, as he believes Electra simply needs tough love and structure. He has not yet started a parenting class. He reports that Electra is manipulating the child welfare system to get out of a household that has rules, and into one where Electra can do "whatever, whenever."</p> <p>Ms. Smith states it is important for Mr. Garcia to keep his job as he is the primary income for the family and Electra needs a home to return to. She requests ODHS look at scheduling parenting time on the weekend so Mr. Garcia can have more time with Electra.</p>		
7.	<p>ODHS has made sufficient efforts in developing the concurrent permanency plan.</p> <p>ODHS started a thorough relative search and has spoken with the maternal aunt about her desire to be a long-term resource. ODHS is helping to coordinate the aunt's visit next month during Electra's summer vacation.</p> <p>ODHS reports that Electra's current placement has also indicated a willingness to serve as a potential permanent resource if needed, preferably through guardianship rather than adoption.</p> <p>The ASFA timelines were explained to parents at the Family</p>	X	

FINDINGS		Yes	No
	Engagement Meeting. Electra has been involved in conversations about concurrent planning. ODHS has collected Electra's birth certificate and medical records. Father's Questionnaire and ICWA documentation are on file.		
8.	<p>ODHS is in compliance with the case plan and court orders.</p> <p>ODHS has maintained consistent contact with Electra at least monthly (and at least every other month in Electra's placement) in compliance with agency policy and law. The agency has also referred the parents for all court-ordered services in a timely fashion.</p> <p><i>Reason for "no" finding: The agency has not ensured that services are in place to safeguard Electra's health and well-being. Please see concerns noted in Finding #3A.</i></p>		X
9.	<p>The permanency plan is the most appropriate plan for the youth.</p> <p>The permanency plan is reunification.</p> <p>CASA supports continuation of the plan of reunification.</p> <p>Youth's attorney Mr. Parker indicates that Electra was not at all open to the idea of reunification until very recently, but they were willing to have a conversation about it in preparation for this CRB review. Ms. Garcia's progress has both surprised and encouraged Electra, who is tentatively hopeful at this point. While Electra is adamant that they want to remain in their current resource home, the ultimate plan of reunification is not objectionable for now. Therefore, Mr. Parker is not advocating for a change of permanency plan at this time.</p> <p>The board finds the permanency plan of reunification is still the most appropriate plan at this early time in the case.</p>	X	
10.	<p>There is a continuing need for placement.</p> <p>The parents have not yet met Conditions for Return. Safety issues related to substance abuse and Electra's mental health needs still remain.</p> <p>ODHS reports an estimated date to leave care as 1/4/23.</p>	X	

Additional Finding(s):

- a. The board congratulated Ms. Garcia on her new sobriety and hard work.
- b. This case is next due for review by the CRB on 11/10/22. If a permanency hearing is held on or before that date, the date for the next CRB would change to avoid duplication of the requirement for review.
- c. A permanency hearing is set for 1/4/23 at 10:30 am.

RECOMMENDATIONS:

1. ODHS reach out to Electra's school to request that Electra be assessed for a 504 Plan.
2. ODHS make a referral for an orthodontic assessment for Electra.
3. ODHS move family visits to a more natural community setting as soon as possible and provide opportunities for contact on evenings or weekends to avoid conflicting with Mr. Garcia's work schedule.

Allison Nolan	05/12/2021	Sue Land
Board Member	Date	Field Manager

Pursuant to state law, ODHS must notify the Citizen Review Board within 17 days of receipt of this report when the Agency does not intend to implement the above recommendations. ODHS may notify the CRB by completion of the forms provided for that purpose. Mail the form to: Citizen Review Board, 1163 State St., Salem, OR 97301.

Parents may request the court to conduct a review hearing.

COURT RESPONSE
TO CRB FINDINGS AND RECOMMENDATIONS

The above youth was reviewed by the Flint County CRB on 05/12/2021.

The Court will set a hearing and provide notice to the parties.

No additional hearing(s) needs to be set at this time.

The Court requests CRB review this case again in:

Child/Young Adult Update

Provided Services	Start Date	End Date
CANS Screening	11/10/2021	11/10/2021
Mental Health Assessment Referral	11/10/2021	11/10/2021

Describe how the child/young adult is doing:

Electra (who is going by initials E.J.) uses they/them pronouns. EJ is doing well in school this year so far, which is a huge improvement from last year. EJ identifies as nonbinary and is involved in a local LGBTQIA+ support group. They continue to engage in individual counseling weekly. Due to concerns about self-harm and suicidal ideation, they have a CANS supervision level of 3. Medication management is occurring through their psychiatrist. They continue to struggle with

anxiety in some settings, but this has been improving lately. In the last month with Mr. Garcia out of the home, EJ agreed to participate in family therapy with Ms. Garcia.

Describe how the child/young adult was involved with the development of the case plan:

EJ is a strong advocate for their needs and has input regularly into the case plan. ODHS has contact with EJ at least once a month though usually more by text, and takes feedback from EJ's therapeutic team.

Placements

Placement Setting	Start Date	End Date
Provider 987654	04/13/2022	
Provider 345987	11/02/2021	04/12/2022
Provider 321724	10/28/2021	11/01/2021

Number of Days in Care: 337

Number of Out-of-Home Placements: 03

Describe how the current placement meets the child/young adult's physical, emotional, and educational needs:

The current Resource Family is one that EJ chose. This family was known to EJ through their LGBTQIA+ youth group. This family is knowledgeable about LGBTQ+ youth as well as youth struggling with mental health diagnoses and trauma. They work closely with EJ's treatment team. The Resource Family is fully certified as of 9/26/21.

Diligent Efforts to Place with Relatives and Siblings

Efforts to place child/young adult with relatives or person with a caregiver relationship:

Initial relative search was completed on 1/10/2022. Letters were sent to 32 relatives, 10 responses were received. Several relatives were interested in having some contact with Electra, but not in being a placement resource. There is a maternal aunt who resides out of state who is interested in being a long-term resource if needed.

Additional relative information:

EJ does not have a relationship with many relatives as the family was not in contact with extended relatives for the last 7+ years. EJ would like to have contact with their grandparents and maternal aunt but also is anxious about meeting relatives they do not remember and not understanding the challenging family dynamics and historical "drama" between the relatives and Mr. and Mrs. Garcia.

Are siblings placed together? Not Applicable

Efforts being made to place siblings together: N/A

Is it the best interest of the child/young adult to be placed separately: N/A

Reasons why it is in the best interest of the child/young adult to be placed separately: N/A

Visits & Face-to-Face Contacts

Visitations for the last six months

Number of Visits	Visitation With
42	Lydia Garcia
3	Jon Garcia

Notes about visits/parenting time:

Parenting time with Ms. Garcia occurs weekly in the community and is supervised by Resource Parents. Mr. Garcia and Ms. Garcia are not currently living together, and Mr. Garcia has stopped responding to this worker's attempts to reach him. He is currently whereabouts unknown. He does not participate in visits, though they have been offered.

Education

Attendance Status: Full Time

Current Grade Level: 8th

School History	Start Date	End Date
Washington High School		
Jefferson Middle School	09/09/2019	
Roosevelt Elementary School	09/07/2013	06/13/2019

Skills	Grade Level Performance
Math	At Grade Level

Reading	At Grade Level
---------	----------------

Child/Young adult is performing at grade level: Yes

Please explain below: EJ is a dedicated student and is already talking about plans to attend college to major in psychology or music education. This school year has just started but EJ is performing at grade level so far, which is an improvement from last year. EJ has missed two days this semester for illness, but with increased supports EJ is attending classes and turning in assignments on time.

Child/Young adult is on an Individualized Education Plan (IEP) or 504 Plan: Yes

Please explain below: At the end of the 2021-2022 school year, EJ was assessed for a 504 Plan and found to qualify on the basis of mental health diagnoses. EJ now receives accommodations and extra support around testing and homework assignments, and can take breaks during the day if needed. EJ attends some classes online and attends school in person two days per week. This schedule has worked well to meet their needs. EJ also receives special assistance from CASA for informal tutoring and help with accountability around turning in homework assignments.

Update on how the child/young adult is doing in school:

See above. EJ is now involved in wraparound services and the wrap team meets monthly at school. EJ liked having the option to do schooling online as it reduced their anxiety in general, but EJ's therapist and resource parents encouraged them to try in person school this year for at least one month to give it a try. EJ did this and reports wanting to now continue in in-person schooling. EJ's CASA has been meeting with EJ once per week to go through assignments that are due, to help ease EJ's anxiety around failing or turning in incorrect assignments. This has dramatically increased EJ's motivation to complete work. Teachers report EJ is attending school consistently this school year so far, and is maintaining good grades with the assistance of CASA, the 504 Plan accommodations, and support from resource parents and the wrap team.

Health

Psychotropic Medications reviewed per policy: Not Applicable

Please explain why psychotropic medications were not reviewed: N/A

Immunizations up to date: Yes

Please describe plan to update immunizations below: N/A

Update on child/young adult's health:

EJ has been to their doctor for a physical exam with no health concerns noted. EJ's anxiety medication is prescribed by a psychiatrist at Flint Behavioral Health who does med management monthly. EJ's last dental exam noted no cavities but did recommend an orthodontic assessment. EJ has had an orthodontic assessment this summer and the orthodontist recommended a device to correct their bite, surgery is not needed at this time. EJ will need to wear this device for two years and have it adjusted every 3 months. This worker has learned that pediatric cleft palate-related orthodontic needs can be covered by OHP.

Cultural and Social Activities

Describe how DHS makes sure the child/young adult takes part in culturally supportive or developmentally suitable activities. Also tell how the care provider supports and encourages these activities:

EJ enjoys electronic music, arts and crafts, and skateboarding. The Resource Family has purchased a variety of art supplies for EJ. An extracurricular art class was offered to EJ, but they declined and signed up for a digital media art elective in school this year instead. They also participated in a multimedia film day camp this summer and reportedly loved it. EJ enjoys attending their LGBTQ+ youth group and has developed some close friendships there.

PARENT/GUARDIAN: Lydia Garcia

Engagement

Number of Face-to-Face Contacts with Caseworker (last 6 months): 5

Describe what this parent/guardian wants the team to know about their family and their family's culture:

Ms. Garcia reports her family relationships are strained and she was cut off from her family as they didn't support the choices she was making and didn't approve of the relationship with Mr. Garcia. Her family relationships growing up were not always healthy and she spent some time in foster care herself due to her father's substance abuse and domestic violence. She would like to reconnect with her mother but is unsure how to start the process. Ms. Garcia reports that the most important part of her life is being a mom. She enjoys traditional Christian holidays and attends a Catholic church periodically. She would like to see EJ involved in a church, and reports taking EJ previously. EJ was asked if they would like to attend church with Ms. Garcia and EJ said on Christmas Eve it would be ok. EJ reports that Ms. Garcia did not ever take them to church except on holidays.

Describe additional information on parenting time:

Ms. Garcia and EJ see each other usually about once per week, sometimes more frequently. Visits are held in the community with resource parents supervising. Ms. Garcia often comes over for dinner. Family counseling between EJ and mom is scheduled to begin later this month.

Describe the agency's efforts to engage the parent/guardian in the case plan:

ODHS meets with Ms. Garcia monthly to check in on the Action Agreement.

Connections with Community and Natural Supports:

Ms. Garcia reports relying on her roommate as a healthy support as well as several peers in her treatment program. She also has reported feeling a little lonely at times especially after separating

from Mr. Garcia and with EJ having been removed from the home. This worker has encouraged her to build community with other parents of LGBTQ+ youth or at her church.

Connections with Tribe, Community, and Natural Supports:

N/A

Conditions for Return

Conditions for Return - Describe what is needed to return the children to this parent/guardian safely:

1. There is a home-like setting where the parents and Electra live? NOT MET - Ms. Garcia works part time and is currently renting a room from a coworker. Electra could not be placed here as children are not permitted on the coworker's lease.
2. The home is calm enough to allow for safety service providers and activities to occur? NOT MET – The prohibition on children living in the home prevents safety service providers and activities of reunification to occur in the home. This is also a temporary month-to-month situation and Ms. Garcia is currently looking for more stable housing.
3. At least one parent is willing to cooperate with an in-home plan? MET- Ms. Garcia expresses she is willing to have people in the home to assist once Electra returns. She has been highly cooperative and stays in contact with caseworker.
4. The necessary and sustainable safety resources are available? MET- Ms. Garcia has submitted information for a friend from her AA group who could be approved as a safety service provider, and would be willing to assist with implementation of an in-home plan as long as it was not long-term.

Progress toward Conditions for Return:

The parents are currently separated and Mr. Garcia's whereabouts are currently unknown. Ms. Garcia is still in outpatient treatment and is involved in aftercare services including attending NA/AA meetings. She has a sponsor and is working the steps. However, Ms. Garcia had a positive UA for alcohol about 6 weeks ago, then had a clean UA a week after that, and now has not made it to the last 3 scheduled UAs. She is at risk of being discharged from outpatient treatment for noncompliance. Ms. Garcia completed a general parenting class that was offered this summer through her treatment program.

Ms. Garcia has shown that she is beginning to understand how to support EJ's mental health needs including the importance of maintaining regular counseling and medication management appointments for EJ. She encourages EJ to attend these appointments. Ms. Garcia is eager to repair her relationship with EJ.

Expected Outcomes

Strengths – Enhanced Protective Capacity

Describe strengths the parent/guardian has that can help protect the children from each identified safety threat:

Ms. Garcia sets aside her needs in favor of the child.

She has shown that despite her strong desire for EJ to return home now, she understands EJ needs more time in family counseling to build their trust back up. She continues to address her substance dependency.

Ms. Garcia is adaptive as a caregiver.

She is working hard to implement new ways of parenting and communicating with EJ.

Ms. Garcia is aligned with Electra.

She is reaching out to learn more about parenting a LGBTQ+ youth and expresses wanting to support EJ better.

Ms. Garcia is demonstrating impulse control.

She graduated from outpatient treatment and continues in aftercare services. She had one relapse this August when she received news that her dog, who was being cared for by a volunteer from the Humane Society, had escaped the yard and was struck and killed by a car. Ms. Garcia reached out for help and demonstrated appropriate transparency and reliance on healthy supports. After that experience, she maintained sobriety until she stopped showing for UAs. There is some indication that she may be using again and is not reaching out for help as she did last time.

Challenges – Diminished Protective Capacity

Describe challenges that have been a barrier to the parent/guardian’s ability to protect the children from each identified safety threat: The parent is not emotionally able to intervene to protect the child.

Ms. Garcia reports she is unsure how to speak with Mr. Garcia when he is struggling to be empathetic with EJ’s mental health needs. She reports that Mr. Garcia is a very traditional “man of the house” and she struggles to stand up to him for herself or EJ. Ms. Garcia is now separated from Mr. Garcia. She has not engaged in domestic abuse survivor’s services although they have been offered to her.

Expected Outcomes - Regarding this challenge, what needs to change for the case to close:

Ms. Garcia will understand her protective role and feels confident in using the skills learned to protect and advocate for EJ.

Progress: Ms. Garcia has an upcoming appointment to begin family counseling with EJ. She has made at least one or two phone calls to EJ’s service providers to understand EJ’s needs but has not been consistent with that. She states that she would like to be involved with a support group for parents of LGBTQ+ teens but has not located one yet.

Expected Outcome Status: Goal not Achieved.

Services to Support Expected Outcomes

PARENT/GUARDIAN: Jon Garcia

Engagement

Number of Face-to-Face Contacts with Caseworker (last 6 months): 2

Describe what this parent/guardian wants the team to know about their family and their family's culture:

Mr. Garcia is also estranged from much of his family and reports he is a "lone wolf" type, although he prides himself on being a provider for his family. Mr. Garcia moved out 4 months ago and stopped returning ODHS phone calls and texts. Ms. Garcia has not heard from him and he remains whereabouts unknown.

Describe additional information on parenting time:

Mr. Garcia started attending parenting time with Electra on the weekends in June 2021. He did this for about a month but appeared to continue to use alcohol to excess approx. daily. There were reports he also was using methamphetamines, but this was unconfirmed because he would not take a UA. It appears that he lost his job and/or quit in early July. Ms. Garcia reports that Mr. Garcia was accused of stealing from work and either quit or was fired at that time. His last visit with EJ was at the end of June.

Describe the agency's efforts to engage the parent/guardian in the case plan:

ODHS had been attempting monthly contact with Mr. Garcia and recently submitted an absent parent search.

Connections with Community and Natural Supports:

Mr. Garcia has a few friends in southern Oregon and in Flint County that he keeps in touch with, and was close to his boss. He is not in touch with any relatives and did not want to provide any information to ODHS about relatives.

Connections with Tribe, Community, and Natural Supports:

N/A

Conditions for Return

Conditions for Return - Describe what is needed to return the children to this parent/guardian safely:

5. There is a home-like setting where the parents and Electra live? NOT MET – It is unclear where Mr. Garcia is currently living.
6. The home is calm enough to allow for safety service providers and activities to occur? NOT MET
7. At least one parent is willing to cooperate with an in-home plan? NOT MET – Mr. Garcia is not communicating with the agency at all.
8. The necessary and sustainable safety resources are available? NOT MET – Mr. Garcia has not identified anyone in his life who could help supervise a reunification with EJ.

Progress toward Conditions for Return:

Mr. Garcia has not made progress towards Conditions for Return at this time.

Expected Outcomes

Strengths – Enhanced Protective Capacity

Describe strengths the parent/guardian has that can help protect the children from each identified safety threat:

Mr. Garcia had a brief period of sobriety from alcohol earlier in this case. He prides himself on working hard to provide for his family.

Challenges – Diminished Protective Capacity

Describe challenges that have been a barrier to the parent/guardian's ability to protect the children from each identified safety threat: Mr. Garcia is not aligned with EJ and does not understand EJ's needs.

Expected Outcomes - Regarding this challenge, what needs to change for the case to close:

Mr. Garcia will engage in family counseling and seek out education regarding how to parent LGBTQ+ youth.

Progress: Mr. Garcia hasn't engaged in family counseling or parenting classes.

Expected Outcome Status: Goal not Achieved.

Challenges – Diminished Protective Capacity

Describe challenges that have been a barrier to the parent/guardian's ability to protect the children from each identified safety threat: Mr. Garcia has not been able to achieve or maintain sobriety.

Expected Outcomes - Regarding this challenge, what needs to change for the case to close: Mr. Garcia will engage in substance abuse treatment. He will demonstrate sobriety or healthy use of legal substances such that it does not interfere with his ability to meet Electra's needs.

Progress: Mr. Garcia has not engaged in treatment or achieved sobriety.

Expected Outcome Status: Goal not Achieved.

Challenges – Diminished Protective Capacity

Describe challenges that have been a barrier to the parent/guardian's ability to protect the children from each identified safety threat: Mr. Garcia has not taken responsibility for domestic violence occurring in the home or engaged in any BIP treatment.

Expected Outcomes - Regarding this challenge, what needs to change for the case to close: Mr. Garcia will acknowledge how his actions impact his family especially EJ. Mr. Garcia will learn nonviolent communication/parenting techniques.

Progress: Mr. Garcia has not engaged in treatment or made progress yet.

Expected Outcome Status: Goal not Achieved.

Services to Support Expected Outcomes

Provider Name	Service Category	Service Type	Start Date	End Date	Court Ordered
Addiction Recover Team Services	A/D Services/Support	A/D assessment	01/02/2021	04/01/2021	Yes

REASONABLE OR ACTIVE EFFORTS REGARDING PLANNING
Electra Garcia (21JU12345)

Primary Plan: Reunification

Additional reasonable efforts to support the child returning or remaining home with parents/guardians not stated in Parents/Guardians section above:

Family Engagement Meeting
 Bus passes to get to appointments/visits
 LGBTQ+ youth educational materials and parenting class referral
 Visitation offered

Concurrent Plan: Adoption

Efforts to develop the Concurrent Plan:

ODHS has searched for relatives and ASFA timelines have been explained to the parents. EJ has been consulted on the concurrent permanency plan and reports they would like to stay in their current placement if they can't return home. EJ does not want to be adopted but understands a guardianship and prefers that. EJ's birth certificate and medical records have been gathered and ICWA forms are complete. EJ's paternal aunt Maria Garcia-Rodriguez who lives out of state is willing to be a permanent placement resource for EJ. The agency has paid for the aunt's travel and lodging expenses so she could come visit Oregon this past summer. EJ enjoyed the time with Aunt Maria but they are still working on reconnecting and strengthening their relationship. They have each other's contact information and reportedly do send text messages and pictures back and forth from time to time. Aunt Maria plans to visit for the weekend for EJ's upcoming 14th birthday.

Efforts to engage the Family in the development the Concurrent Plan:

ODHS has discussed the concurrent plan with both parents and with EJ. The current Resource Parents have also discussed concurrent planning with ODHS.

Additional Efforts when Plan is Other than Remain Home or Reunification

Efforts made to finalize the Permanent Plan:

N/A

COMPELLING REASONS DETERMINATION

Electra Garcia (21JU12345)

Compelling Reasons Adoption is not an Appropriate Plan

Number of months in care out of 22: 11

NEED FOR CONTINUANCE OF SUBSTITUTE CARE AND WARDSHIP

Electra Garcia (21JU12345)

The child/young adult remains in substitute care. DHS believes it is necessary for the child/young's safety and well-being to continue in substitute care because:

The intention is for the placement of the child/young adult to be permanent. The child/young adult continues to need DHS services available through the placement; OR

DHS believes substitute care continues to be necessary rather than returning the child/young adult home or taking prompt action to secure permanent placement because: Ms. Garcia is engaging in the needed services but needs further time in family counseling. Mr. Garcia needs housing where a child could be placed.

Expected timetable to place with a parent/guardian or other permanent placement: February 2023

Termination of the child/young adult's commitment to the legal custody of DHS is expected to occur on or by: August 2023

Termination of wardship is expected on or by: August 2023.

DHS asked the child/young adult to attend the hearing and offered transportation: Yes

Explain the reason why:
