

# ZOOM Mediation Guide

For more information on using Zoom, please watch this [video](#)

## About Zoom Mediations

- Zoom allows you to participate in a session virtually, which means you are able to:
  - view and hear the mediator and the other person over your desktop or laptop computer, tablet or smart phone
  - view documents shared by the mediator or by one of you
  - choose options to match your comfort level (opt out of video, chat privately with the mediator, etc.)
  - have one-on-one time with the mediator (matched by equal time between the mediator and the other person)

## Protocols for Parting Waters Zoom Mediations

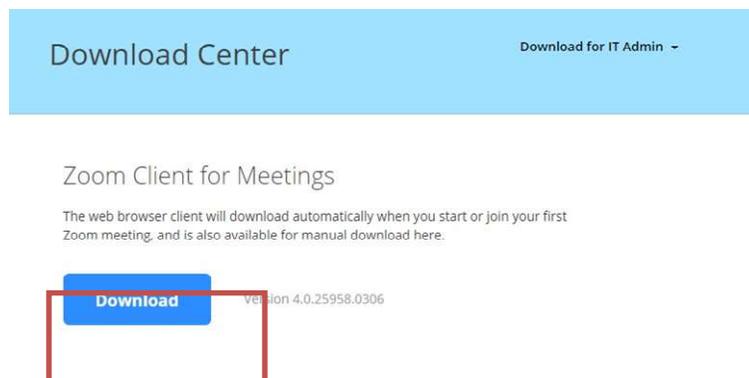

- We recommend logging into your session a few minutes before it starts to allow for any necessary troubleshooting.
- **Because mediation is confidential, we ask that you insure that there is no one else in the room or in earshot of the session.**
- If you lose internet connection during the meeting, log back in and the mediator will admit you back into the room.

## To Join by Computer

### Step 1:

Download plug-in for Zoom software: [https://zoom.us/download#client\\_4meeting](https://zoom.us/download#client_4meeting)

(Although not necessary, this will prevent you from having to download each time you join a session)

**STEP 2:**

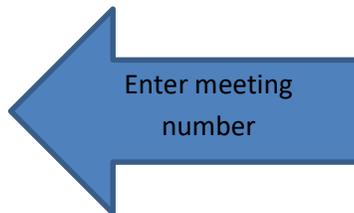

A few minutes before the meeting, click the link to Zoom meeting shared in your appointment confirmation email. It will look similar to the link below:

<https://app.acuityscheduling.com/schedule.....>

**OR** visit Zoom <https://zoom.us/> and enter the meeting number
