

## Q4 What topics or format changes would you like to see at future conferences?

Answered: 7 Skipped: 10

#	RESPONSES	DATE
1	We will get the hang of this remote conferencing! but I would like less breaks and get done early if we don't have the content. Breakouts worked good.	8/25/2021 10:46 AM
2	I would like more substantive law and practice and less about covid and remote hearings. Maybe domestic violence and dependency.	8/25/2021 8:30 AM
3	Less reading of cases.... Walk the Judges through a Dependency Case	8/23/2021 8:43 AM
4	Topics that are directly elicited from all judges that would be helpful in daily practice. Less panels. More factual info	8/20/2021 5:11 PM
5	An in-person format is always preferable as it provides opportunities for interactions among judges that just don't happen in a virtual setting, even with the chat room feature.	8/18/2021 3:59 PM
6	It's hard to respond to this question because I assume we'll be in person (hopefully!) for next year's conference. Regarding the Model Court Team presentation, my reaction was that there was a little too much "dependency 101" (which should be its own presentation for those who feel they need it) and not enough "here's how you pull a model court team together and sustain it."	8/17/2021 3:31 PM
7	A deeper dive into settlement conference models in other courts (to see what's working elsewhere) and also dependency collaboration strategies on tools	8/9/2021 4:35 PM
