

## January 2026 Safety Framework Spotlight

### Subject: **The Year of the Blue Triangle**

Welcome to 2026!

Our Safety Framework Spotlight series begins where it matters most: the **Blue Triangle**.

Why the Blue Triangle? It's a quick, simple way to organize safety information: **Threats, Vulnerabilities, Protective Capacities**.

Many of you shared that using the triangle has helped in court, with families, and in safety planning for parenting time and reunification. Change is hard—but having a simple visual makes it easier.
