

JCIP Model Dependency Forms Summary of Changes Effective June 2021

The Juvenile Court Improvement Program maintains an “Admissions to Petition” form that can be used to document a parent’s admission in a dependency case at the time jurisdiction is entered or pending resolution of unresolved contested allegations from another parent. Minor non-substantive revisions have been made and the form has also been translated into Spanish. At the time the judgment of jurisdiction is filled out, there is space in the model form to reference the admissions form and incorporate it into the judgment.

The forms can be downloaded from the Juvenile and Family Court Programs [forms page](#) under “Juvenile Dependency Additional Forms.” Questions or comments about the forms should be directed to Megan Hassen at megan.e.hassen@ojd.state.or.us or 503.986.4511.
