

## ACMS Public Access Password Requirements

- Default Length: Must be between 8-64 characters
- Must contain 3 out of 4 combinations of: Upper case alpha, lower case alpha, numbers, special characters.
- The 12 most recent passwords should not be used. Currently, we can only check if the new password is 50% different from the most recent password.
- If the password expires, the user will need to reset their password.
- After 3 wrong password entries, the user is locked out. The account should unlock automatically after 60 minutes.
