HOW TO USE THIS DOCUMENT

This document provides a list of all of the available filing codes that will appear in the filing code drop-down box. The codes are listed by case category and the type of filing (Case Initiation/Subsequent).

The codes listed under **Case Initiation** for a case category will appear when selecting *NEW CASE* in File and Serve.

The codes listed under **Subsequent** are those codes that will appear when filing into an existing case in that case category.

The following cases types do not have a Case Initiation list because they must be conventionally filed:

Offense Felony, Offense Misdemeanor, Offense Violation, Contempt (Punitive and Remedial), Procedural Matters – Extradition, Juvenile Delinquency (All), Misdemeanor Appeal from a Justice or Municipal Court
